Preamble

The Governments of Canada, Ontario, Quebec, Nova Scotia, New Brunswick, Manitoba, British Columbia, Prince Edward Island, Saskatchewan, Alberta, Newfoundland and Labrador, the Northwest Territories, Yukon, and Nunavut,

RESOLVE to:

PROMOTE an open, efficient, and stable domestic market for long-term job creation, economic growth, and stability;

REDUCE AND ELIMINATE, to the extent possible, barriers to the free movement of persons, goods, services, and investments within Canada;

PROMOTE equal economic opportunity for Canadians;

ENHANCE the competitiveness of Canadian business;

PROMOTE sustainable and environmentally sound development;

CONSULT on matters related to trade, investment, and labour mobility within Canada;

AND,

RECOGNIZING the diverse social, cultural, and economic characteristics of the Provinces;

RESPECTING the legislative authorities of Parliament of Canada and the provincial legislatures under the Constitution of Canada;

CONFIRMING that this Agreement represents a mutually agreed balance of the Parties' rights and obligations;

HAVE AGREED as follows:

PART I – INITIAL PROVISIONS

Chapter One - Initial Provisions

Article 100: Objective

The Parties' objective is to reduce and eliminate, to the extent possible, barriers to the free movement of persons, goods, services, and investments within Canada and to establish an open, efficient, and stable domestic market. The Parties recognize and agree that enhancing trade, investment, and labour mobility within Canada would contribute to the attainment of this goal.

Article 101: Application

This Agreement applies to trade, investment, and labour mobility within Canada.

Article 102: Mutually Agreed Principles

1. The Parties are guided by the following principles:
 - (a) the need to eliminate existing barriers and avoid new barriers to trade, investment, and labour mobility within Canada and to facilitate the free movement of persons, goods, services, and investments within Canada;
 - (b) the need to ensure non-discriminatory treatment of persons, goods, services, and investments, irrespective of where they originate in Canada; and
 - (c) the need to reconcile occupational standards and regulatory measures to provide for the free movement of persons and the removal of barriers to trade and investment within Canada.
2. In applying the principles set out in paragraph 1, the Parties recognize:
 - (a) the right to regulate is a basic and fundamental attribute of government, and the decision of a Party not to adopt or maintain a particular measure shall not affect the right of any other Party to adopt or maintain such a measure;
 - (b) the need to preserve flexibility in order to achieve public policy objectives, such as public health, safety, social policy, environmental or consumer protection, or the promotion and protection of cultural diversity;
 - (c) the need for full disclosure of information, legislation, regulations, policies, and practices that have the potential to impede an open, efficient, and stable domestic market;
 - (d) the need for exceptions and transition periods; and

- (e) the need for dispute resolution procedures and compliance mechanisms that are accessible, timely, credible, and effective.

Article 103: Extent of Obligations

Each Party is responsible for compliance with this Agreement by:

- (a) its departments, ministries, and similar agencies of government;
- (b) its regional, local, district, and other forms of municipal government;
- (c) its other governmental bodies and enterprises;
- (d) any monopoly, non-governmental body, or non-governmental enterprise, whenever exercising regulatory, administrative, or other governmental authority that the Party has delegated to it, including the power to expropriate, grant licences, approve commercial transactions, or impose quotas, fees, or other charges; and
- (e) its monopolies and government enterprises undertaking commercial activities.

PART II – GENERAL RULES

Chapter Two - General Rules

Article 200: Application

1. Except as provided in this Agreement, this Chapter applies to any measure of a Party relating to trade, investment, and labour mobility within Canada.
2. This Chapter does not apply to procurement by a Party of a good or service purchased for governmental purposes, and not with a view to commercial sale or resale or for use in the production or supply of a good or service for commercial sale or resale, whether or not that procurement is a covered procurement within the meaning of Article 504 (Scope and Coverage).

Article 201: Non-Discrimination

1. Each Party shall accord to goods of any other Party treatment no less favourable than the best treatment it accords to its own like, directly competitive or substitutable goods and to those of any other Party or non-Party.
2. Each Party shall accord to workers, services, service suppliers, investors, and investments of any other Party treatment no less favourable than the best treatment it accords, in like circumstances, to its own workers, services, service suppliers, investors, and investments and to those of any other Party or non-Party.
3. With respect to the Government of Canada, paragraphs 1 and 2 mean that it shall accord to:
 - (a) goods of a Province treatment no less favourable than the best treatment it accords to like, directly competitive or substitutable goods of any other Province or non-Party; and
 - (b) workers, services, service suppliers, investors, and investments of a Province treatment no less favourable than the best treatment it accords, in like circumstances, to workers, services, service suppliers, investors, and investments of any other Province or non-Party.
4. With respect to the Government of Canada, there must be a geographical component to the less favourable treatment to be inconsistent with paragraphs 1, 2, or 3. A geographical component to the less favourable treatment means that the Government of Canada favours on either a *de jure* or *de facto* basis the goods, workers, services, service suppliers, investors, or investments of a Province over those of any other Province or non-Party.

5. According identical treatment may not necessarily result in compliance with paragraphs 1, 2, 3, or 4.
6. Each Party shall ensure that any licensing, registration, certification, or other commercial charges it applies to:
- (a) goods of any other Party are no less favourable than the charges it applies to its own like, directly competitive or substitutable goods and charges it applies to those goods from any other Party or non-Party, except to the extent that the difference in charges can be justified by actual cost; or
 - (b) workers, services, service suppliers, investors, or investments of any other Party are no less favourable than the charges it applies to its own workers, services, service suppliers, investors, or investments and charges it applies to workers, services, service suppliers, investors, or investments from any other Party or non-Party, in like circumstances, except to the extent that the difference in charges can be justified by actual cost.
7. For greater certainty, for the purposes of paragraph 6, “commercial charge” does not include a tax or royalty.

Article 202: Legitimate Objectives

1. This Article does not apply to Article 302 (Technical Barriers to Trade), Article 303 (Sanitary and Phytosanitary Measures), Article 320 (Prohibited Incentives), Article 402 (Regulatory Notification), and Article 403 (Reconciliation of Regulatory Measures), or to Chapter Six (Environmental Protection) and Chapter Seven (Labour Mobility).
2. A Party may establish the level of protection it considers appropriate to achieve a legitimate objective.
3. If it is established that a measure is inconsistent with this Agreement, that measure is permissible provided that:
- (a) the purpose of the measure is to achieve a legitimate objective;
 - (b) the measure is necessary to achieve that legitimate objective;
 - (c) the measure is not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail; and
 - (d) the measure is not applied in a manner that would constitute a disguised restriction on trade.
4. For the purposes of paragraph 3(b), a measure shall be considered necessary to achieve a legitimate objective provided that:

- (a) the measure makes a contribution to the achievement of the legitimate objective; and
- (b) there are no reasonably available alternatives that would make an equivalent contribution to the achievement of the legitimate objective in a less trade-restrictive manner.

Article 203: Transparency

1. Each Party shall ensure that its measures respecting matters covered by this Agreement are made readily accessible.
2. Each Party shall maintain an enquiry point, identified on this Agreement's website, able to answer reasonable enquiries and to provide information relating to its measures and to other matters covered by this Agreement.
3. Nothing in this Agreement shall be construed to require a Party to disclose information that:
 - (a) would impede law enforcement;
 - (b) would involve a waiver of privilege;
 - (c) would prejudice the legitimate commercial interests of third persons; or
 - (d) would be exempt from disclosure under, or its disclosure would contravene, applicable law.

PART III – SPECIFIC RULES

Chapter Three - Special Provisions

Article 300: Application

This Chapter does not apply to procurement by a Party of a good or service purchased for governmental purposes, and not with a view to commercial sale or resale or for use in the production or supply of a good or service for commercial sale or resale, whether or not that procurement is a covered procurement within the meaning of Article 504 (Scope and Coverage).

PART A: Goods

Article 301: Right of Entry and Exit

1. This Article applies to any measure adopted or maintained by a Party relating to trade in goods, except for any technical regulation, conformity assessment procedure, standard, or sanitary or phytosanitary measure.
2. A Province shall not adopt or maintain any measure that restricts or prevents the movement of goods across provincial or territorial boundaries.
3. The Government of Canada shall not adopt or maintain any measure that unduly restricts or prevents the movement of goods across provincial or territorial boundaries.

Article 302: Technical Barriers to Trade

1. This Article applies to the preparation, adoption, and application of technical regulations, standards, and conformity assessment procedures, that may affect trade in goods within Canada.
2. This Article does not apply to any sanitary or phytosanitary measure.

Technical Regulations

3. Each Party shall ensure that technical regulations are not prepared, adopted, or applied that would have the effect of creating unnecessary obstacles to trade within Canada.
4. For the purposes of paragraph 3, technical regulations shall not be more trade restrictive than necessary to fulfil a legitimate objective, taking account of the risks non-fulfillment would create. For the purposes of this Article, such legitimate objectives are not limited only to those legitimate objectives set out in the definition of “legitimate objective” in Chapter Thirteen (Definitions). In assessing such risks, relevant elements of consideration include available scientific and technical information, related processing technology, or intended end-uses of the product.
5. Wherever appropriate, technical regulations shall be based on:
 - (a) product requirements in terms of performance rather than design or descriptive characteristics; and
 - (b) relevant national, *de facto* national, or international standards, if such standards exist or their completion is imminent, except if such national, *de facto* national, or international standards, or relevant parts, would be an ineffective or inappropriate means for the fulfilment of the legitimate

objectives pursued, for instance because of fundamental climatic or geographical factors or fundamental technological problems.

6. Technical regulations shall not be maintained if the circumstances or objectives giving rise to their adoption no longer exist or if the changed circumstances or objectives can be addressed in a less trade-restrictive manner.

Standards

7. If national, *de facto* national, or international standards do not exist or are demonstrably ineffective or inappropriate, interested Parties shall cooperate to develop national standards and, wherever practicable, use Canada's National Standardization Network for that purpose.

Conformity Assessment Procedures

8. On request, each Party shall accept the results of another Party's conformity assessment procedures, even if those procedures differ from its own, provided it is satisfied that those procedures offer an assurance of conformity with applicable technical regulations or standards equivalent to its own procedures. If a Party does not accept the results of a conformity assessment procedure conducted in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.

9. Each Party shall use relevant national or international guides and recommendations, if they exist or their completion is imminent, as a basis for its conformity assessment procedures, except if such national or international guides and recommendations or relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued, for instance because of fundamental climatic or geographical factors or fundamental technological problems.

Article 303: Sanitary and Phytosanitary Measures

1. This Article applies to any sanitary or phytosanitary measure adopted or maintained by a Party that may, directly or indirectly, affect trade within Canada.

Basic Rights and Obligations

2. Each Party has the right to take any sanitary or phytosanitary measure necessary to protect human, animal, or plant life or health within its territory.

3. Each Party shall ensure that its sanitary and phytosanitary measures:

- (a) except as provided for in paragraph 9, are applied only to the extent necessary to protect human, animal, or plant life or health, are based on scientific principles, and are not maintained without sufficient scientific evidence; and
- (b) do not arbitrarily or unjustifiably discriminate between or among Parties where identical or similar conditions prevail.

4. Sanitary and phytosanitary measures shall not be applied in a manner that would constitute a disguised restriction on trade within Canada.

Assessment of Risk and Determination of the Appropriate Level of Sanitary or Phytosanitary Protection

5. Each Party shall ensure that its sanitary or phytosanitary measures are based on an assessment, as appropriate to the circumstances, of the risks to human, animal, or plant life or health, taking into account risk assessment techniques developed by relevant international organizations.
6. Each Party should, when determining the appropriate level of sanitary or phytosanitary protection, take into account the objective of minimizing negative trade effects.
7. When adopting or maintaining any sanitary or phytosanitary measure to achieve the appropriate level of sanitary or phytosanitary protection, each Party shall ensure that the measure is not more trade-restrictive than required to achieve its appropriate level of sanitary or phytosanitary protection, taking into account technical and economic feasibility.
8. For the purposes of paragraph 7, a measure is not more trade-restrictive than required unless there is another measure that is reasonably available to the Party, taking into account technical and economic feasibility, which achieves the appropriate level of sanitary or phytosanitary protection and is significantly less restrictive to trade.
9. If relevant scientific evidence is insufficient, a Party may provisionally adopt any sanitary or phytosanitary measure. In such circumstances, the Party shall seek to obtain the additional information necessary for a more objective assessment of risk and review the sanitary or phytosanitary measure accordingly within a reasonable period of time.

Article 304: Cost-of-Service Fees

Each Party shall ensure that any cost-of-service fees it applies to the goods of another Party are no less favourable than those applied to its own like, directly competitive or substitutable goods and to those of any other Party or non-Party, except to the extent that any difference can be justified by actual cost.

PART B: Services

Article 305: Scope and Coverage

This Part:

- (a) applies to any measure adopted or maintained by a Party relating to service suppliers and to trade in services within Canada; and
- (b) does not apply to incentives.

Article 306: Formal Requirements

A Party may require that a service supplier:

- (a) have a local agent or local address for service;
- (b) post a bond or other form of financial security;
- (c) establish or contribute to a trust account or to a compensation fund;
- (d) maintain a particular type and amount of insurance or other similar guarantee;
- (e) maintain and provide access to records; or
- (f) obtain a licence, registration, or certification,

as a condition for supplying a service in or into its territory, provided that such requirements are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination.

Article 307: Market Access - Services

1. A Party shall not adopt or maintain any measure that imposes limitations on:
 - (a) the number of service suppliers, whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test;
 - (b) the total value of service transactions or assets in the form of numerical quotas, or the requirement of an economic needs test;
 - (c) the total number of service operations or the total quantity of services output expressed in terms of designated numerical units in the form of quotas, or the requirement of an economic needs test; or

- (d) the total number of natural persons that may be employed in a particular sector or that an enterprise may employ and who are necessary for, and directly related to, the performance of economic activity in the form of numerical quotas, or the requirement of an economic needs test.

2. For greater certainty, a measure requiring a person to be a resident of, or have a commercial presence in, a Province in order to provide a service is not inconsistent with paragraph 1.

Article 308: Licensing and Qualification Requirements and Procedures

1. Each Party shall ensure that:

- (a) licensing procedures and qualification procedures do not unduly complicate or delay the supply of a service;
- (b) licensing procedures and qualification procedures used by a Party, and decisions of a Party in authorization and licensing processes, are impartial with respect to all applicants; and
- (c) licences and authorizations shall be granted as soon as all relevant conditions have been met, and once granted, shall come into effect without undue delay, consistent with any terms and conditions applicable to the licence or authorization.

2. In an application process to obtain a licence or an authorization involving licensing procedures and licensing requirements or qualification procedures and qualification requirements, each Party shall ensure that:

- (a) the processing of an application is:
 - (i) initiated without undue delay; and
 - (ii) completed within a reasonable timeframe from the submission of a complete application, including the time to reach a final decision;
- (b) if possible, applications are accepted in electronic format under similar conditions of authenticity as paper submissions. Authenticated copies should be accepted, if considered appropriate, in place of original documents;
- (c) at the request of an applicant, information concerning the status of the application is provided without undue delay; and
- (d) if it considers that an application is incomplete, the Party will, within a reasonable period of time, inform the applicant, identify the additional information required to complete the application, and provide the applicant with an opportunity to correct any deficiency with the application.

3. With respect to rejected applications for a licence or an authorization, each Party shall ensure that the applicant is:
- (a) informed in writing and without undue delay of the rejection;
 - (b) on request, informed of the reasons for the rejection and of the timeframe for an appeal or review of the rejection, as required under paragraph 4; and
 - (c) permitted to submit a new application within a reasonable period of time.
4. Each Party shall maintain or institute judicial, arbitral, or administrative tribunals or procedures which provide, at the request of an affected investor or service supplier, for a prompt review of, and where justified, appropriate remedies for, administrative decisions affecting the supply of a service. If such procedures are not independent of the agency entrusted with the administrative decision concerned, each Party shall ensure that the procedures provide for an objective and impartial review.

Article 309: Electricity Transmission Service Providers and Trade in Electricity Transmission Services

Annex 309 sets out the obligations applicable to measures of transmission service providers and trade in transmission services, the manner in which those obligations will come into force, and special dispute resolution procedures applying to matters that fall within the scope of that Annex.

PART C: Investment

Article 310: Scope and Coverage

1. Article 311 and Article 312 apply to any measure adopted or maintained by a Party relating to investors of another Party or their investments in its territory.
2. Article 313 applies to any measure adopted or maintained by a Party relating to investors of a Party or their investments in its territory.

Article 311: Formal Requirements

A Party may require that an investor or its investment:

- (a) have a local agent or local address for service;
- (b) post a bond or other form of financial security;
- (c) establish or contribute to a trust account or to a compensation fund;
- (d) maintain a particular type and amount of insurance or other similar guarantee;
- (e) maintain and provide access to records; or
- (f) obtain a licence, registration, or certification,

as a condition for carrying on business, or establishing or acquiring an enterprise in its territory, provided that such requirements are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination.

Article 312: Market Access - Investment

1. A Party shall not adopt or maintain any measure regarding an investor of another Party that:
 - (a) imposes limitations on:
 - (i) the number of enterprises, whether in the form of numerical quotas, monopolies, exclusive suppliers, or the requirement of an economic needs test;
 - (ii) the total value of transactions or assets in the form of numerical quotas, or the requirement of an economic needs test;

- (iii) the total number of operations or the total quantity of output expressed in terms of designated numerical units in the form of quotas, or the requirement of an economic needs test;
 - (iv) the total number of natural persons that may be employed in a particular sector or that an enterprise may employ and who are necessary for, and directly related to, the performance of economic activity in the form of numerical quotas, or the requirement of an economic needs test; or
 - (v) the participation of capital from an investor of another Party in terms of maximum percentage limit on shareholding, or the total value of individual or aggregate investment; or
- (b) restricts or requires specific types of legal entity or joint venture through which an enterprise may carry out an economic activity.

2. Nothing in paragraph 1 shall be construed to prevent a Party from adopting or maintaining any measure that:

- (a) concerns zoning and planning regulations affecting the development or use of land, or other analogous measures;
- (b) seeks to ensure the conservation and protection of natural resources and the environment, including limitations on the availability, number and scope of concessions granted, and the imposition of moratoria or bans;
- (c) requires the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation, and telecommunications;
- (d) restricts the concentration of ownership to ensure fair competition;
- (e) requires that a certain percentage of the shareholders, owners, partners, or directors of an enterprise be qualified to practice a certain profession such as lawyers or accountants;
- (f) relates to the acquisition, sale, or other disposition of bonds, treasury bills, or other kinds of debt securities issued by that Party; or
- (g) requires a person to be a resident of, or have a commercial presence in, a Province in order to make an investment in the territory of that Province.

Article 313: Performance Requirements

1. In connection with an investment of an investor of a Party in its territory, a Party shall not impose or enforce, or condition the receipt or continued receipt of an advantage on compliance with, any requirement to:

- (a) achieve a specific level or percentage of local content of goods or services;
- (b) purchase or use goods or services produced locally;
- (c) purchase goods or services from a local source; or
- (d) transfer technology, a production process, or other proprietary knowledge to a person or a Party.

2. Nothing in paragraph 1 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment in its territory of an investor of a Party or of a non-Party, on compliance with a requirement to locate production, provide a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.

3. Paragraph 1(d) does not apply when the requirement is imposed, or the commitment or undertaking is enforced, by a court, administrative tribunal, or competition authority, to remedy a violation of competition laws.

PART D: Monopolies and Government Enterprises – Commercial Activity

Article 314: Scope and Coverage

1. Except for Article 309 and Article 704 (Residency Requirements), only the obligations in this Part apply to monopolies and government enterprises when undertaking commercial activities.
2. For greater certainty, “commercial activities” includes procurement by a monopoly or government enterprise only if the good or service is not purchased for governmental purposes and is purchased with a view to commercial sale or resale or with a view to use in the supply or production of a good or service for commercial sale or resale.
3. Nothing in paragraphs 1 or 2 shall be construed to limit the application of Chapter Five (Government Procurement) to covered procurement by a monopoly or government enterprise.

Article 315: Right to Maintain, Establish, or Authorize Monopolies and Government Enterprises

Without prejudice to the Parties' rights and obligations under this Agreement, nothing in this Part prevents a Party from maintaining, establishing, or authorizing monopolies and government enterprises in its territory or expanding the scope of a monopoly to cover an additional good or service.

Article 316: Non-Discrimination

Each Party shall ensure that in its territory its monopolies, in their purchase or sale of any good or service, accord non-discriminatory treatment to:

- (a) an investment of an investor of any other Party;
- (b) a good of any other Party; or
- (c) a service supplier of any other Party.

Article 317: Commercial Considerations

Each Party shall ensure that its monopolies and government enterprises act solely in accordance with commercial considerations in its territory:

- (a) in their treatment of an investment of an investor of any other Party; or
- (b) when purchasing, selling, or supplying goods or services to or from any other Party, including when these goods or services are supplied to or by an investment of an investor of any other Party,

except to fulfill the purpose for which the monopoly or government enterprise has been created.

Article 318: Exceptions

Article 316 and Article 317 do not apply to any measure adopted or maintained by a Party's monopoly or government enterprise if a Party-specific exception taken against Article 201 (Non-Discrimination) or paragraph 2 of Annex 309, as set out in the Party's Schedules to Part VII (Party Schedules), would apply had the same measure been adopted or maintained by that Party.

PART E: Incentives

Article 319: Scope and Coverage

1. This Part applies to incentives provided to any enterprise by a Party or any entity acting on behalf of the Party.
2. The following provisions do not apply to incentives:
 - (a) Article 201 (Non-Discrimination);
 - (b) Part B;
 - (c) Part C, with the exception of Article 313; and
 - (d) Chapter Ten (Dispute Resolution), only with respect to Article 321 and Article 322.

Article 320: Prohibited Incentives

1. A Party shall not provide an incentive that:
 - (a) discriminates against an enterprise on the basis that:
 - (i) the head office of the enterprise is located in the territory of another Party; or
 - (ii) the enterprise is owned or controlled by an investor of another Party;
 - (b) is, in law or in fact, contingent on, and would directly result in, an enterprise located in the territory of any Party relocating an existing operation to its territory or to the territory of another Party; or
 - (c) is primarily intended to enable the recipient to undercut competitors of another Party in obtaining a specific contract in the territory of another Party.
2. An incentive shall not be considered to be inconsistent with paragraph 1(b) if a Party can demonstrate that the incentive was provided to offset the possibility for relocation of the existing operation outside Canada and the relocation was imminent, well known, and under active consideration.
3. For greater certainty:
 - (a) paragraph 1 shall not be construed to prevent a Party from carrying out general investment promotion activities; and
 - (b) paragraph 1(b) shall not apply to incentives provided to an enterprise:

- (i) of a non-Party located within the territory of a non-Party; or
- (ii) relocating existing operations from a non-Party to the territory of a Party.

Article 321: Avoidance of Certain Incentives

1. The Parties affirm that economic development within their territories may include the provision of incentives.
2. Notwithstanding paragraph 1, the Parties acknowledge that certain incentives may cause adverse effects to the economic interests of other Parties. Accordingly, each Party shall take into account the economic interests of other Parties in developing and applying its incentives.
3. With respect to the Government of Canada, paragraph 2 means that it shall take into account whether any incentive it provides to an enterprise in a Province operates so as to cause adverse effects to the economic interests of another Province.
4. Each Party shall endeavour to refrain from providing an incentive that:
 - (a) sustains, for an extended period of time, an economically non-viable operation whose production adversely affects the competitive position of a facility located in the territory of another Party;
 - (b) increases capacity in sectors where the increase is not warranted by market conditions; or
 - (c) is excessive, either in absolute terms or relative to the total value of the specific project for which the incentive is provided, taking into account such factors as the economic viability of the project and the magnitude of the economic disadvantage that the incentive is designed to overcome.
5. Each Party shall refrain from engaging in bidding wars against another Party to attract prospective investors seeking the most beneficial incentive.

Article 322: Consultations

1. Further to Article 321, if a Party considers that an incentive of another Party is adversely affecting or may adversely affect its interests, that Party may request consultations on the matter. The responding Party shall accord full and sympathetic consideration to that request.
2. During consultations, a Party may seek additional information regarding an incentive of the responding Party, including:
 - (a) the Party's policy objective in providing the incentive;

- (b) the total amount of the incentive; and
- (c) any measures taken to limit the incentive's potential distortive effect on trade.

3. On the basis of these consultations, the responding Party shall endeavour to eliminate or minimize any adverse effects of the incentive on the requesting Party's interests.

Article 323: Reporting

1. Each Party shall submit a biennial report on incentives to the Secretariat that provides the following information for the reporting period:

- (a) a short description of its incentive programs, including their goals and objectives;
- (b) the total amount of each of the following types of incentives committed by the Party to enterprises in its territory:
 - (i) cash grants or contributions;
 - (ii) loans or loan guarantees; and
 - (iii) equity injections,
- (c) in the case of the Government of Canada, the total amount for each Province of each type of incentive referred to in paragraph (b) committed by it to enterprises in that Province;
- (d) the amounts of each:

- (a) evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
 - (b) base its evaluation on the conditions that the procuring entity has specified in advance in its tender notices or tender documentation.
4. If there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

 - (b) false declarations;

1. A procuring entity may limit tenders to prequalified suppliers provided that the prequalification process is consistent with this Chapter.
2. A request for prequalification inviting interested suppliers to apply for inclusion on a prequalification list shall be published in a tender notice annually on one of the tendering websites or systems designated by its Party and shall include:
- (a) the criteria that will be used to prequalify suppliers, unless those requirements are included in the qualification documentation;
 - (b) a statement that only the suppliers on the prequalified list will receive further notices of procurement covered by the list; and

- (c) the period of validity of the list, or if the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list.

3. Notwithstanding paragraph 2, where a prequalification list will be valid for three years or less, a procuring entity may publish the request for prequalification only once, at the beginning of the period of validity of the list, provided that the request for prequalification states the period of validity and that further requests will not be published.

4. A procuring entity shall allow all prequalified suppliers to participate in a particular procurement, unless the procuring entity states in its request for prequalification any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

Standing Arrangements

5. A procuring entity may establish standing arrangements using a procurement method that is consistent with this Chapter.

6. In issuing a call for a standing arrangement, a procuring entity shall indicate how subsequent purchases will be made from a supplier under a standing arrangement.

Article 509: Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to trade.

2. In prescribing technical specifications for the goods or services being procured, a procuring entity shall, if appropriate:

- (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
- (b) base the technical specification on standards, if they exist.

3. A procuring entity should avoid the use of technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or supplier. If the technical specifications are used in that manner, a procuring entity shall indicate that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirement of the procurement by including words such as “or equivalent” in the tender documentation.

4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person who has a commercial interest in the procurement.

5. For greater certainty, a Party, including its procuring entities may, in accordance with this Article, prepare, adopt, or apply technical specifications to promote the conservation of natural resources or protect the environment.

6. For greater certainty, this Chapter is not intended to preclude a Party, including its procuring entities, from preparing, adopting, or applying technical specifications it considers necessary to protect sensitive government information, including specifications that may affect or limit the storage, hosting, or processing of such information outside Canada. For the purposes of this paragraph, “government information” includes third party information held by or on behalf of the government and “sensitive” information includes confidential, classified, or otherwise protected information.

Tender Documentation

7. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Tender documentation shall include all pertinent details concerning:

- (a) the evaluation criteria that will be used in the evaluation of tenders, including the methods of weighting and evaluation, unless price is the sole criterion; and
- (b) the requirements to be fulfilled by the supplier, and the terms or conditions applicable to the tender, including, if applicable:
 - (i) technical specifications;
 - (ii) requirements for servicing or warranty;
 - (iii) transition costs;
 - (iv) applicable conformity assessment certification, plans, drawings, or instructional materials; and
 - (v) requirements related to the submission of the tender.

8. In establishing the date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account factors such as the complexity of the procurement, the extent of subcontracting anticipated, and the realistic time required for production, de-stocking, and transport of goods from the point of supply or the realistic time required for supply of services.

Article 510: Modifications, Clarification, or New Information

1. A procuring entity shall make available to all suppliers any new information or clarification of the original information set out in the tender documentation provided in response to questions from one or more suppliers, in an open, fair, and timely manner.

2. Prior to the final date for the submission of tenders, if a procuring entity modifies the evaluation criteria or the requirements set out in the tender documentation, or amends or reissues a tender notice or the tender documentation, the procuring entity shall:

- (a) publish the modifications or amended or re-issued tender notice or tender documentation on the tendering website or system used by the procuring entity; and
- (b) extend, if appropriate, the final date for the submission of tenders to allow adequate time for suppliers to modify and re-submit amended tenders.

Article 511: Time Periods

A procuring entity shall, consistent with its own reasonable needs, provide a reasonable period of time for suppliers to prepare and submit responsive tenders, taking into account factors such as:

- (a) the nature and complexity of the procurement;
- (b) the extent of subcontracting anticipated; and
- (c) the time necessary for transmitting tender documentation by non-electronic means.

Article 512: Negotiation

1. If consistent with its own laws, a Party may provide for its procuring entities to conduct negotiations with suppliers if:

- (a) the procuring entity has indicated its intent to conduct negotiations in the tender notice required under Article 506; or
- (b) it appears from the procuring entity's evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the tender documentation.

2. A procuring entity shall ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the tender documentation, and shall:

- (a) if negotiations are conducted concurrently with multiple suppliers, provide a common deadline for the participating suppliers to submit any new or revised tenders; or
- (b) if negotiations are conducted consecutively with one supplier at a time, provide a deadline for the participating supplier to submit any new or revised tender prior to proceeding to negotiate with the next ranked supplier.

3. In the course of negotiations, a procuring entity shall not give an unfair advantage to, or discriminate against, a supplier.

Article 513: Limited Tendering

1. Subject to paragraphs 2 and 3, and provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of any other Party or protects its own suppliers, a procuring entity may use limited tendering in the following circumstances:

- (a) if:
 - (i) no tenders were submitted or no suppliers requested participation;
 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the submitted tenders were collusive,provided that the requirements of the tender documentation are not substantially modified;
- (b) if the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:
 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights, or other exclusive rights;
 - (iii) due to an absence of competition for technical reasons;
 - (iv) the supply of goods or services is controlled by a supplier that is a statutory monopoly;
 - (v) to ensure compatibility with existing goods, or to maintain specialized goods that must be maintained by the manufacturer of those goods or its representative;
 - (vi) work is to be performed on property by a contractor according to provisions of a warranty or guarantee held in respect of the property or the original work;
 - (vii) work is to be performed on a leased building or related property, or portions thereof, that may be performed only by the lessor; or

- (viii) the procurement is for subscriptions to newspapers, magazines, or other periodicals;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement, if a change of supplier for such additional goods or services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) if strictly necessary, and for reasons of urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering;
- (e) for goods purchased on a commodity market;
- (f) if a procuring entity procures a prototype or a first good or service that is developed in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular suppliers;
- (h) if a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a tender notice; and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner; or
- (i) if goods or consulting services regarding matters of a confidential or privileged nature are to be purchased and the disclosure of those matters through an open tendering process could reasonably be expected to compromise government confidentiality, result in the waiver of privilege, cause economic disruption, or otherwise be contrary to the public interest.

2. A procuring entity may, in its use of limited tendering under paragraphs 1(a) through 1(i), choose not to apply Articles 504.5 through 504.10, Article 506, Article 507, Article 508.5, Article 508.6, Article 509.7, Article 509.8, Articles 510 through 512, Article 514 and Article 515.

3. A procuring entity may, in its use of limited tendering under paragraph 1(i), also choose not to apply Article 516.

Article 514: Electronic Auctions

If a procuring entity intends to conduct a covered procurement using an electronic auction, the procuring entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender if the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

Article 515: Treatment of Tenders and Award of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.

2. A procuring entity shall not penalize any supplier whose tender is received after the final date and time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.

3. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Evaluation and Award of Contract

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the tender notices and tender documentation and be from a supplier that satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a

contract, the procuring entity shall award the contract to the supplier that the procuring entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the tender notices and tender documentation, has submitted:

- (a) the most advantageous tender; or
- (b) if price is the sole criterion, the lowest price.

6. If a procuring entity receives a tender from a supplier with a price that is abnormally lower than the prices in other submitted tenders, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

Article 516: Transparency of Procurement Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform participating suppliers of its contract award decisions, and, on the request of a supplier, shall do so in writing. Subject to Article 517, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the procuring entity did not select its tender.

Publication of Award Information

2. No later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice on one of the tendering websites or systems designated by its Party. The information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following:

- (a) a description of the goods or services procured;

- (c) the name and address of the successful supplier;

Collection and Reporting of Statistics

3. Each Party shall make available to the Secretariat, on an annual basis, the number and aggregate value of its covered procurement contract awards, broken down by procuring entity type as set out in Article 504.3.

4. If a Party publishes its statistics on an official website, in a manner that is consistent with the requirements of paragraph 3, the Party may, instead of reporting to the Secretariat, provide a link to the website, together with any instructions necessary to access and use those statistics.

5. If a Party requires notices concerning awarded contracts to be published on its tendering website and the notices are accessible through a single database in a form permitting analysis of the contracts covered under this Chapter, the Party may, instead of reporting to the Secretariat, provide a link to that website, together with any instructions necessary to access and use the database.

Article 517: Disclosure of Information

1. Notwithstanding any other provision of this Chapter, a procuring entity shall not provide to any particular supplier information that might prejudice fair competition between suppliers.

2. Nothing in this Chapter shall be construed to require the disclosure of information if disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of third persons, including the protection of intellectual property;
- (d) would be contrary to the public interest; or
- (e) would be exempt from disclosure under, or its disclosure would contravene, applicable law.

Article 518: Review Procedures

Administrative or Judicial Review Procedures

1. Each Party shall provide a timely, effective, transparent, and non-discriminatory administrative or judicial review procedure through which a Canadian supplier may challenge:

- (a) a breach of the Chapter; or
- (b) if the supplier does not have a right to challenge directly a breach of this Chapter under the laws of a Party, a failure to comply with a Party's measures implementing this Chapter,

arising in the context of a covered procurement, in which the supplier has, or has had, an interest.

2. If a Party uses an administrative review procedure, findings shall be issued to the supplier within 90 days after the filing of its complaint unless an extension of time is warranted due to extenuating circumstances, in which case the findings will be issued within 135 days after the filing of the complaint.

3. The procedural rules for all challenges and the remedies available to the supplier shall be in writing and made generally available.

Consultations

4. In the event of a complaint by a supplier alleging that there has been a breach or failure as referred to in paragraph 1, the procuring entity and the supplier shall seek to resolve the complaint through consultations. The procuring entity shall accord impartial and timely consideration to the complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.

Challenges by Suppliers

5. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than ten days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

6. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier.

7. If a body, other than an authority referred to in paragraph 6, initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

Administrative Review Procedures

8. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants to the proceedings ("participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;
- (c) the participants shall have the right to be represented and accompanied;
- (d) the participants shall have access to all proceedings;

- (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
- (f) the review body shall make its decisions or recommendations in a timely fashion in accordance with paragraph 2, in writing, and shall include an explanation of the basis for each decision or recommendation.

Remedies

9. Each Party shall adopt or maintain procedures that provide for:
 - (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. The interim measures under those procedures may result in the postponement or suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether interim measures should be applied. The reasons for not applying those measures shall be provided in writing; and
 - (b) if a review body has determined that there has been a breach or failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

Article 519: Exceptions

1. Covered procurement of a Party is subject to the exceptions set out in the Party's Schedule to Annex 519.1.
2. A Party may exclude a supplier of any other Party from participating in a covered procurement if:
 - (a) the other Party has set out an exception in its Schedule to Annex 519.1;
 - (b) that exception excludes or impairs the Party's supplier's access to any procurement opportunities; and
 - (c) consultations have failed to resolve the matter.
3. A Party's exclusion from participation under paragraph 2 may be equivalent to, but must not be more restrictive than, the extent of the exclusion or impairment of its suppliers' access to any procurement opportunities of the other Party.
4. Consultations under paragraph 2(c) shall be limited to 15 days.

This Chapter applies to any environmental measure adopted or maintained by a Party that may affect trade, investment, or labour mobility within Canada.

Article 601: Context and Objectives

Environmental protection includes climate change mitigation and adaptation, and ensuring the sustainability of natural resources such as fish, forests, clean air, and water.

Article 602: Relationship to Other Agreements

Nothing in this Agreement shall be construed to affect the rights and obligations of the Parties under environmental agreements, including conservation agreements, in effect on the effective date.

Article 603: Environmental Considerations

1. Each Party shall, in dealing with trade, investment, and labour mobility, take into account the need to restore, maintain, and enhance the environment.
2. Each Party shall pay special attention to facilitating the removal of barriers to trade and investment concerning goods and services of particular relevance for environmental protection.

Article 604: Right to Regulate and Levels of Protection

1. Each Party has the right to establish its own environmental priorities and levels of environmental protection in its territory consistent with this Agreement and to adopt or maintain its environmental measures accordingly.
2. Each Party shall ensure that its measures provide for high levels of environmental protection and shall continue to endeavour to improve those levels of protection.

Article 605: Scientific and Technical Information

1. Each Party shall, when preparing and implementing environmental measures that may affect trade or investment, take into account relevant scientific and technical information and related national or international standards, guidelines, or recommendations, if they exist.

2. An environmental measure shall not be considered to be inconsistent with this Agreement by reason solely of the lack of full scientific certainty regarding the need for that measure.

3. Nothing in this Chapter prevents a Party from informing the scientific basis for an environmental measure with traditional knowledge, in particular that of the Aboriginal peoples of Canada.

Article 606: Upholding Levels of Protection

A Party shall not waive or otherwise derogate from, or offer to waive or otherwise derogate from, its environmental measures as an encouragement for trade or investment in its territory.

Chapter Seven - Labour Mobility

Article 700: Purpose

The purpose of this Chapter is to eliminate or reduce measures adopted or maintained by the Parties that restrict or impair labour mobility within Canada and, in particular, to enable any worker certified for an occupation by a regulatory authority of one Party to be recognized as qualified for that occupation by all other Parties.

Article 701: Scope and Coverage

1. This Chapter applies to any measure adopted or maintained by a Party relating to:
 - (a) residency requirements for workers as a condition of access to employment opportunities or as a condition of certification relating to a worker's occupation;
 - (b) certification requirements, other than residency requirements, for workers in order to practice an occupation or use a particular occupational title; and
 - (c) occupational standards.
2. This Chapter does not apply to:
 - (a) social policy measures including labour standards and codes, minimum wages, employment insurance qualification periods, and social assistance; and
 - (b) Quebec's, Nunavut's, and the Northwest Territories' measures pertaining to their official language requirements.

Article 702: Extent of Obligations

1. For the purposes of Article 103(d) (Extent of Obligations), each Party shall, through appropriate measures, ensure compliance with this Chapter by non-governmental bodies that exercise authority delegated by law.
2. Each Party shall, through appropriate measures, seek compliance with this Chapter by non-governmental bodies other than those that exercise authority delegated by law.

Article 703: Relationship to Other Agreements

If there is an inconsistency in a particular case between a provision of this Chapter and a provision of any other agreement between two or more Parties respecting matters covered by this Chapter, the agreement that is more conducive to labour mobility in that particular case prevails to the extent of the inconsistency. For greater certainty, any such agreement may prevail only as between the Parties that are party to that agreement.

Article 704: Residency Requirements

1. Subject to Article 707, a Party shall not require a worker of a Party to be resident in its territory as a condition of:

- (a) eligibility for employment; or
- (b) certification relating to the worker's occupation.

2. With respect to the Government of Canada, paragraph 1(a) means that, subject to Article 707, it shall not require a worker of a Party to be a resident of a particular province or territory as a condition of eligibility to apply, in an external appointment or hiring process, for appointment or hiring to a position or job in:

- (a) federal public service departments, departmental corporations, Crown corporations, separate agencies, and other portions of the public administration, that are listed in Schedules I to VI of the *Financial Administration Act* (Canada), as amended; and
- (b) other Crown corporations, as defined in the *Financial Administration Act* (Canada), as amended, that are not covered under paragraph (a).

Article 705: Certification of Workers

1. Subject to paragraphs 2, 3, 4, and 6, and Article 707, any worker certified for an occupation by a regulatory authority of a Party shall, upon application, be certified for that occupation by each other Party that regulates that occupation without any requirement for any material additional training, experience, examinations, or assessments as part of that certification procedure.

2. Subject to paragraphs 3 and 4, and Article 707, each Party shall recognize any worker holding a jurisdictional certification bearing the Red Seal endorsement under the Interprovincial Standards Red Seal Program as qualified to practice the occupation identified in the certification.

3. A regulatory authority of a Party may, as a condition of certification for any worker referred to in paragraphs 1 or 2, impose requirements on that worker (other than requirements for material additional training, experience, examinations, or assessments), including requirements to:

- (a) pay an application or processing fee;
- (b) obtain insurance, malpractice coverage, or similar protection;
- (c) post a bond;
- (d) undergo a criminal background check;

- (e) provide evidence of good character;
- (f) demonstrate knowledge of the measures maintained by that Party applicable to the practice of the occupation in its territory; or
- (g) provide a certificate, letter, or other evidence from the regulatory authority in each territory in which they are currently certified confirming that their certification in that territory is in good standing;

provided that:

- (h) subject to paragraph 5(c), any requirements referred to in paragraphs (a) through (f) are the same as, or substantially similar to, but no more onerous than, those imposed by the regulatory authority on its own workers as part of the normal certification process; and
- (i) the requirement does not create a disguised restriction on labour mobility.

4. Nothing in paragraphs 1 or 2 limits the ability of a regulatory authority of a Party to:

- (a) refuse to certify a worker or impose terms, conditions, or restrictions on his or her ability to practice if such action is considered necessary to protect the public interest as a result of complaints or disciplinary or criminal proceedings in any other jurisdiction relating to the competency, conduct, or character of that worker;
- (b) impose additional training, experience, examinations, or assessments as a condition of certification if the person has not practiced the occupation within a specified period of time;
- (c) notwithstanding Article 808 (Language), require the worker to demonstrate proficiency in either English or French as a condition of certification if no equivalent language proficiency requirement was imposed on, and satisfied by, the worker as a condition of the worker's certification in his or her current certifying jurisdiction; or
- (d) assess the equivalency of a practice limitation, restriction, or condition imposed on a worker in his or her current certifying jurisdiction to any practice limitation, restriction, or condition that may be applied by the regulatory authority to a worker in its territory, and apply an equivalent practice limitation, restriction, or condition to the worker's certification, or, if the regulatory authority has no provision for applying an equivalent limited, restricted, or conditional certification, refuse to certify the worker;

provided that:

- (e) any such measure is the same as, or substantially similar to, but no more onerous than, that imposed by the regulatory authority on its own workers; and

(f) the measure does not create a disguised restriction on labour mobility.

5. Subject to Article 707, each Party shall ensure that any measure that it adopts or maintains relating to certification of workers of any other Party:

- (a) is published on the website of the relevant regulatory authority or through a readily accessible website of the Party;
- (b) results in expeditious certification; and
- (c) except for actual cost differentials, does not impose fees or other costs that are more burdensome than those imposed on its own workers.

6. If a worker has been certified for an occupation by a regulatory authority of a Party, nothing in this Article prevents a regulatory authority of any other Party from permitting the worker to practice that occupation in its territory without further certification.

Article 706: Occupational Standards

1. Each Party may adopt or maintain any occupational standard, and in doing so, may establish the level of protection that it considers to be appropriate in the circumstances. The Parties agree to take steps to reconcile differences in occupational standards, to the extent possible and where practical.

2. Further to paragraph 1, each Party shall, to the extent possible and where practical, adopt occupational standards based on common interprovincial standards, including occupational standards developed for the Interprovincial Standards Red Seal Program, or international standards. The Parties acknowledge their continued commitment to the Interprovincial Standards Red Seal Program, including the use of National Occupational Analyses, as a well-established means of establishing common interprovincial standards for trades.

3. If occupational standards have not been established in the territory of a Party in respect of a particular occupation but exist in the territory of any other Party, and the Party without the occupational standards wishes to develop such occupational standards, it shall do so in a manner conducive to labour mobility. A Party intending to develop such occupational standards shall notify the other Parties of its intent and afford them an opportunity to comment on the development of those occupational standards.

4. If occupational standards do not exist in the territory of any other Party in respect of an occupation and a Party considers it necessary to establish occupational standards for that occupation, the process of development of new occupational standards shall occur in a manner conducive to labour mobility. A Party intending to develop new occupational standards shall notify the other Parties of its intent and afford them an opportunity to comment on the development of those occupational standards.

5. If a Party considers it necessary to make changes to any standards in respect of an occupation, the process for making such changes shall occur in a manner conducive to

labour mobility. A Party intending to make such changes shall notify the other Parties and afford them an opportunity to comment on the change to those standards.

Article 707: Legitimate Objectives for Labour Mobility

1. If it is established that a measure falling within the scope and coverage of this Chapter is inconsistent with Article 201 (Non-Discrimination), Article 704, or Articles 705.1, 705.2, or 705.5, that measure is permissible under this Chapter provided that:

- (a) the purpose of the measure is to achieve a legitimate objective for labour mobility;
- (b) the measure is not more restrictive to labour mobility than necessary to achieve that legitimate objective for labour mobility; and
- (c) the measure does not create a disguised restriction to labour mobility.

2. For greater certainty, for purposes of the application of paragraph 1(b) to Articles 705.1, 705.2, or 705.5, a mere difference between the certification requirements of a Party related to academic credentials, education, training, experience, examination, or assessment methods and those of any other Party is not, by itself, sufficient to justify the imposition of additional education, training, experience, examination, or assessment requirements as necessary to achieve a legitimate objective for labour mobility. In the case of a difference related to academic credentials, education, training, or experience, the Party seeking to impose an additional requirement must be able to demonstrate that any such difference results in an actual material deficiency in skill, area of knowledge, or ability. As an example, the imposition of a requirement for additional education, training, or experience may be justified under paragraph 1(b) if a Party can demonstrate that:

- (a) there is a material difference between the scope of practice of the occupation for which the worker is seeking to be certified in its territory and the scope of practice of the occupation for which the worker has been certified by the regulatory authority of another Party; and
- (b) as a result of that difference, the worker lacks a critical skill, area of knowledge, or ability required to perform the scope of practice of the occupation for which the worker seeks to be certified.

3. If a Party adopts or maintains a measure under paragraph 1, it shall give notice in writing to the Forum of Labour Market Ministers ("Forum") of the measure, in the form, and containing the information, considered appropriate by the Forum. The notice shall indicate the Party's justification for the measure and the anticipated duration of the measure.

4. The Forum shall develop and implement a framework for the Parties to establish a list of specific measures taken under paragraph 1 for which notice has been given to the Forum under paragraph 3. This list will be published online by the Forum.

Article 708: Implementation, Administration, and Assessment

1. The Forum shall:
 - (a) promote the implementation of and ongoing adherence to this Chapter, and develop a work plan or plans related to the objectives of this Chapter;
 - (b) develop and implement the framework for the implementation of Article 706;
 - (c) develop the form and content required for notices under Article 707.3;
 - (d) develop and implement the framework for the posting of measures under Article 707.4; and
 - (e) annually produce a report on the operation of this Chapter and submit that report to the Committee.

2. The annual report referred to in paragraph 1(e) shall include:
 - (a) an assessment of the effectiveness of this Chapter, including an assessment of whether there have been any unintended adverse consequences, together with appropriate recommendations to address concerns identified in the assessment, including recommended amendments to this Chapter;
 - (b) a list of measures for which notice has been given under Article 707.3, together with a description of their respective justification and their anticipated duration; and
 - (c) a summary of any disputes that have arisen between the Parties during the year concerning the interpretation or application of this Chapter, and the results of any consultations or other dispute resolution procedures resorted to by the Parties concerned to resolve the disputes.

2. Article 201 (Non-Discrimination), Article 301 (Right of Entry and Exit), Article 307 (Market Access - Services), Article 312 (Market Access - Investment), Article 313 (Performance Requirements), and any other obligation as identified by a Party, do not apply to any measure that a Party adopts or maintains with respect to the sectors, subsectors, or activities set out in its Schedule to Annex II in Part VII (Party Schedules).

3. For greater certainty, any exception set out in a Party's Schedules in Part VII (Party Schedules) with respect to any measure relating to agricultural goods or food goods does not apply to that Party's technical regulations, conformity assessment procedures, standards, or sanitary or phytosanitary measures.

4. Notwithstanding paragraph 3, an exception set out in a Party's Schedules in Part VII (Party Schedules) with respect to a measure relating to cannabis may apply to that Party's technical regulations, conformity assessment procedures, standards, or sanitary or phytosanitary measures.

5. For the purposes of applying paragraphs 1 (a) and (b) to Annex 309, "existing" means a measure adopted before September 23, 2020.

Article 901: Interpretation of Annexes I and II

1. The Schedule of each Party to Annex I in Part VII (Party Schedules) sets out, pursuant to Article 900.1, the exceptions taken by each Party with respect to existing measures maintained by a Party that do not conform with Article 201 (Non-Discrimination),

Article 301 (Right of Entry and Exit), Article 307 (Market Access - Services), Article 312 (Market Access - Investment), Article 313 (Performance Requirements), or paragraph 2 of Annex 309.

2. The Schedule of each Party to Annex II in Part VII (Party Schedules) sets out, pursuant to Article 900.2, the exceptions taken by each Party with respect to specific sectors, subsectors, or activities for which it may maintain existing measures or adopt new measures that do not conform with Article 201 (Non-Discrimination), Article 301 (Right of Entry and Exit), Article 307 (Market Access - Services), Article 312 (Market Access - Investment), Article 313 (Performance Requirements), or other obligations as identified by a Party.

3. Each exception sets out the following elements:

- (a) **Sector** refers to the general sector in which the exception is taken;
- (b) **Sub-Sector** refers to the specific sector in which the exception is taken;
- (c) **Industry Classification** refers, where applicable, to the activity covered by the exception, as classified in the CPC;
- (d) **Type of Exception** specifies the obligations, referred to in Article 900.1 or Article 900.2, against which the exception is taken;
- (e) **Measures**, in the case of Annex I in Part VII (Party Schedules), identifies the laws, regulations, or other measures (as qualified, where indicated, by the Description element) for which the exception is taken. A measure cited in the Measures element means the measure as amended, continued, or renewed, as of the effective date. Notwithstanding Article 900.1, or the conformity of the subordinate measure with the obligations against which the exception is taken, the exception will also include any subordinate measure that may be adopted or maintained under the authority of the listed measure, provided that the subordinate measure is consistent with the listed measure; and
- (f) **Description**, in the case of Annex I in Part VII (Party Schedules), sets out the non-conforming aspects of the measure for which the exception is taken, and, in the case of Annex II in Part VII, sets out the sector, sub-sector, or activities covered by the exception.

C – Manufacture of cannabis.

D – Wholesale trade services, including on a fee or contract basis.

E – Retailing services, including on a fee or contract basis.

F – All other cannabis-related services not covered by B, C, D, and E.

For purposes of interpreting Parties' cannabis-related exceptions, the Parties intend that the above provides an exhaustive list of all cannabis-related codes, and notwithstanding any subsequent future developments regarding the classification of cannabis or cannabis accessories under the Harmonized Commodity Description and Coding System.

5. In the interpretation of an exception, all elements of the exception shall be considered and:

- (a) the exception shall be interpreted in light of the relevant obligations against which the exception is taken;
- (b) in the case of an exception in Annex I in Part VII (Party Schedules), the Measures element shall prevail over all other elements, unless any discrepancy between the Measures element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the Measures element should prevail, in which case the other elements shall prevail to the extent of that inconsistency; and
- (c) in the case of an exception in Annex II in Part VII (Party Schedules), the Description element shall prevail over all other elements.

6. For greater certainty, exceptions set out in a Party's Schedules in Part VII (Party Schedules) do not limit the ability of a Party to adopt or maintain any measure pursuant to Chapter Eight (General Exceptions).

Article 902: Cannabis-Related Party-Specific Exceptions

1. Notwithstanding Article 1212 (Amendments) and Article 1213 (Modifications to Party-Specific Exceptions), if any amendment to the *Cannabis Act* (Canada), the *Food and Drugs Act* (Canada), or any regulations under these Acts, results in the narrowing of the definition of cannabis or cannabis accessory, as defined in Chapter Thirteen, the Parties may amend their cannabis-related exceptions in Part VII, provided that a notice of intent to amend a Party's cannabis-related exceptions is given to the Secretariat within 60 days of the entry into force of the revised definition.

2. Any future amendment shall not decrease the modifying Party's conformity with Article 201 (Non-Discrimination), Article 301 (Right of Entry and Exit), Article 307 (Market Access – Services), Article 312 (Market Access – Investment), Article 313 (Performance Requirements), or any other obligation as identified by the modifying Party in its cannabis-related exceptions, as that conformity existed immediately before the amendment to the federal definition of cannabis or cannabis accessory.

8. Notwithstanding paragraph 7, a Party or a Person of that Party subject to the prohibition in paragraph 7 may participate in consultations or Proceedings under this Chapter that involve the inconsistency of any other Party's cannabis or cannabis accessories-related measures with, among other obligations under this Agreement, the Article against which the Party subject to paragraph 7 has taken an exception, provided their participation excludes any reference to the application of that Article.

9. For greater certainty, if a Person is a Person of more than one Party within the meaning of Article 1041 (Definitions), paragraphs 7 and 8 only apply to that Person if proceeding under the Party subject to the prohibition in paragraph 7.

2. If the Complaint Recipient is a Party that has implemented the enforcement mechanism for Monetary Penalties referred to in Article 1001.4(c)(i), a Complaining Party in whose favour a Monetary Penalty has been ordered:

- (a) may promptly take such registration, filing, or other action, as is required by the legislation or administrative practice of the Complaint Recipient, to commence the process of enforcing the Monetary Penalty in the same manner as an order against the Crown in the Party's superior courts; and

4. Within 20 days of receiving a notice pursuant to Rule 19 of Annex 1007.1 and 1024.1 that its Standby has been drawn upon, a Complaint Recipient shall replenish the Standby and deposit with the Secretariat written confirmation, signed by the Complaint Recipient's financial institution and addressed to the Secretariat, that the Standby has been replenished to the amount required under Annex 1011.2 and 1028.2.

1. If, in the Report, a Panel has determined that an actual measure is inconsistent with this Agreement and the matter has not been resolved within one year after the date on which the Panel issued the Report, or if the Panel has stipulated an alternate implementation period, by the end of such alternate period, the Complaining Party may make a written request for a meeting of the Committee.
2. The Committee or a subcommittee thereof shall, within 30 days after the date of delivery of the request for a meeting, convene to discuss with the Complaining Party the option of taking retaliatory action in respect of the Complaint Recipient.
3. Subject to having discussed the matter with the Committee under paragraph 2, the Complaining Party may suspend benefits of equivalent effect or, if this is impracticable, impose retaliatory measures of equivalent effect against the Complaint Recipient until such time as a mutually satisfactory resolution of the dispute is achieved.
4. In considering what benefits to suspend or retaliatory measures to impose, the Complaining Party shall:
 - (a) suspend benefits or impose retaliatory measures in the same sector as the measure found to be inconsistent with this Agreement; and

On the written request of either Disputing Party delivered to the other Parties and the Secretariat, with a copy to the Committee, the Committee shall convene a panel, composed of the original panellists, if possible, within 30 days after the date of delivery of the request to the Secretariat, to determine whether the suspension of benefits or the imposition of retaliatory measures by a Complaining Party under paragraph 3 is manifestly excessive.
6. Any suspension of benefits or imposition of retaliatory measures under paragraph 3 is temporary and shall only be applied until the Complaint Recipient has amended or removed the inconsistent measure or has otherwise taken action to resolve the dispute.
7. On the written request of either Disputing Party delivered to the other Parties and to the Secretariat, with a copy to the Committee, the Committee shall convene a panel, composed of the original panellists, if possible, within 30 days after the date of delivery of the request to the Secretariat, to determine whether any action taken by the Complaint Recipient to resolve the dispute is sufficient or satisfactory.
8. If the panel determines that the action taken by the Complaint Recipient to resolve the dispute is sufficient or satisfactory, the Complaining Party shall terminate the

suspension of benefits or remove the retaliatory measures.

9. Paragraphs 1 through 8 apply to an Intervenor that has participated in the Panel Proceeding and has been found by the original Panel to be adversely affected by the inconsistent measure.

10. For greater certainty and in view of Article 1200 (Reaffirmation of Constitutional Powers and Responsibilities):

- (a) this Article does not allow a Party to take retaliatory action that is inconsistent with the Constitution of Canada; and
- (b) no Party shall be prevented from challenging in a court of competent jurisdiction any retaliatory action on the ground that the action is inconsistent with the Constitution of Canada.

11. If a Compliance Panel has been established under Article 1010.9 in respect of the Report referred to in paragraph 1, no separate panel shall be established under paragraphs 5 or 7.

The Complaint Recipient shall submit its request for summary dismissal of the Proceeding, identifying the grounds for its request under Article 1020, in writing to the Secretariat and Panel, copying the Complaining Person and any Intervenor. The request shall be supported by a written submission of not more than 20 pages, along with any accompanying exhibits, setting out the Complainant Recipient's grounds for summary dismissal of the Proceeding under Article 1020.
2. Within 15 days of receipt of a request for summary dismissal, the Complaining Person may submit a Response to the request for summary dismissal in writing to the Secretariat and Panel, copying the Complaint Recipient and any Intervenor. The Response shall be no more than 20 pages.
3. The Panel shall conduct its review based solely on the written submissions, including any supporting documents.
4. If the request is not accompanied by all of the requisite documents or if the request and accompanying documents are not sufficiently complete or clear, the Panel may request further documents, information, or clarification from the Person, the Party of the Person, or the Complaint Recipient.
5. The Panel may request a teleconference or brief hearing with the Disputants and, if relevant, the Party of the Person, to seek additional information or clarification on the matter.
6. If the documentation originally provided by a Complainant in Article 1016.3 or Article 1018.1 is deficient, the Panel, or chairperson if the matter is heard alone, may, at his or her discretion permit the Person to rectify minor deficiencies and, if so rectified in accordance with the requirements in Article 1016.3 or Article 1018.1, allow the Proceeding to continue. The deficiency and steps taken to rectify such deficiencies by the Complainant should be clearly set out in the Panel's Report under Article 1021.
7. With respect to requests made under Article 1020.1(e), if the Panel cannot establish whether the Person is prevented from initiating a Proceeding pursuant to Article 1016.4, Article 1016.5, Article 1033.6, or Article 1033.8, on the sole basis of the written submissions and supporting documents and would require further briefing, the Panel shall not grant a request for summary dismissal, and shall allow the issue to be determined by the Panel in its final Report. The Panel shall state the reasons for its decision in its Report under Article 1021.
8. In reviewing the complaint, the Panel shall review only whether the grounds for a request for summary dismissal of the Proceeding have been satisfied under Article 1020.1, and not the merits of the complaint.
9. The Panel shall render a Report within 45 days as provided for in Article 1021.1, and in exceptional circumstances, within 60 days, if agreed to by the Disputants.

10. If the request for summary dismissal is granted in whole, the Panel shall set out any costs awarded in its Report. If the request for summary dismissal is granted in part or denied, the Panel shall instead set out any costs awarded in its Report issued under Article 1025.

11. The Secretariat shall make the Panel's Report public within seven days after it receives notice thereof.

12. Except as otherwise provided in this Annex, the provisions of this Chapter, including the Rules of Procedure in Annex 1007.1 and 1024.1, apply, with such modifications as may be required, to a summary dismissal Proceeding.

Annex 1037: Code of Conduct for Panellists

PREAMBLE

The Parties place importance on the integrity and impartiality of Proceedings conducted pursuant to the provisions of this Chapter. This Code of Conduct is established to ensure that these principles are respected.

This Code of Conduct is intended to assist the Committee, the Secretariat and Presiding Body members in the operation of dispute resolution procedures involving Presiding Bodies under this Chapter.

The governing principle of this Code of Conduct is that a candidate or member shall disclose the existence of any interest, relationship, or matter that is likely to affect the candidate's or member's independence or impartiality, that is, which creates a reasonable apprehension of bias or an appearance of impropriety.

A reasonable apprehension of bias is created where a reasonable person, with knowledge of all the relevant circumstances that a reasonable inquiry would disclose, would reasonably conclude that a candidate or member has an interest, relationship, or matter that might have an influence on the exercise of the candidate's or member's public duties.

The disclosure obligation, however, should not be interpreted so that the burden of detailed disclosure makes it impractical for persons to serve as members, thereby depriving the Parties and Participants of the services of those who might be best qualified to serve as members. Thus, candidates and members should not be called upon to disclose interests, relationships, or matters whose bearing on their role in the Proceeding would be trivial.

Throughout the Proceeding, candidates and members have a continuing obligation to disclose, in writing, any interest, relationship, or matter that may bear on the integrity or impartiality of the dispute resolution process.

This Code of Conduct does not determine whether or under what circumstances the Parties will disqualify a candidate or member from being appointed to, or serving as a Presiding Body member on the basis of disclosures made.

Part 1: Interpretation

1. In this Code of Conduct:

candidate means:

- (a) an individual whose name appears on a roster established under Annex 1005.2;
or
- (b) an individual who is under consideration for appointment as a member of a Presiding Body pursuant to Annex 1005.2;

family means two or more individuals related to each other by reason of blood relationships, marriage, or adoption;

member means a member of a Presiding Body established pursuant to this Agreement; and

staff, in respect of a member, means individuals under the direction and control of the member.

Part 2: Responsibilities to the Process

2. Every candidate, member, and former member has the responsibility to avoid impropriety and the appearance of impropriety, and shall observe high standards of conduct so that the integrity and impartiality of the dispute resolution process is preserved.

Part 3: Disclosure Obligations

Initial Disclosure Obligation

3. A candidate shall disclose any interest, relationship, or matter that is likely to affect the candidate's independence or impartiality, or that might create a reasonable apprehension of bias or appearance of impropriety in the Proceeding. To this end, a candidate shall make all reasonable efforts to become aware of any such interests, relationships, and matters.

4. Upon consideration for membership on a Presiding Body, and at the request of the Secretariat, the candidate shall disclose such interests, relationships, and matters by completing an Initial Disclosure Statement provided by the Secretariat, and sending it to the Secretariat.

5. Without limiting the generality of the foregoing, candidates shall disclose the following interests, relationships, and matters:

- (a) any financial or personal interest of the candidate:
 - (i) arising out of any personal, professional, or other relationship with Persons associated with the Proceeding or who may benefit from its outcome; and
 - (ii) arising out of any issue, that may be decided in the Proceeding for which the candidate is under consideration, or in another Proceeding, or in an administrative or domestic court Proceeding, that involves similar issues;
- (b) any financial interest of the candidate's employer, partner, business associate, or member of his or her family:

- (i) arising out of any personal, professional, or other relationship with Persons associated with the Proceeding, or who may benefit from its outcome; and
- (ii) arising out of any issue that may be decided in the Proceeding for which the candidate is under consideration, or in another Proceeding, or in an administrative or domestic court Proceeding, that involves similar issues;
- (c) any past or existing financial, business, professional, family, or social relationship with any Participating Parties or Participants in the Proceeding, or their representatives or counsel, or any such relationship involving a candidate's employer, partner, business associate, or member of his or her family; and
- (d) public advocacy, or legal or other representation, concerning an issue in dispute in the Proceeding, or involving the same goods or services.

Supplemental Disclosure Obligation

6. A member in a Proceeding shall, after receiving the written submissions and counter-submissions of the Participating Parties or Participants, disclose any interests, advocacy or representation, particularly as referred to in paragraph 5(a)(ii), 5(b)(ii), or paragraph 5(d), by completing a Supplementary Disclosure Statement provided by the Secretariat and sending it to the Secretariat.

Continuing Disclosure Obligation

7. Once appointed, a member shall continue to make all reasonable efforts to become aware of any interests, relationships, or matters referred to in section 3 and shall disclose them. The obligation to disclose is a continuing duty which requires a member to disclose any such interests, relationships, and matters that may arise during any stage of the Proceeding.

8. The member shall disclose in writing such interests, relationships, and matters by communicating them to the Secretariat for consideration by the appropriate Parties.

Part 4: The Performance of Duties by Candidates and Members

9. A candidate who accepts an appointment as a member shall be available to perform, and shall perform, a member's duties thoroughly and expeditiously throughout the course of the Proceeding.

10. A member shall carry out all duties fairly and diligently, and comply with the provisions of this Chapter, the applicable rules, and the Code of Conduct.

11. A member shall not deny other members the opportunity to participate in all aspects of the Proceeding.

12. A member shall consider only those issues raised in the Proceeding and necessary to make a decision and shall not delegate the duty to decide to any other individual, except as provided in the applicable rules. A member shall make his or her decision based solely on the official record.

13. A member shall take all reasonable steps to ensure that the member's staff comply with Parts 2, 3, and 7 of this Code of Conduct.

14. A member shall not make any communication concerning the Proceeding outside the scope of Presiding Body review. A member shall not have any communication with a Participating Party or Participant, except in the presence of all other members and Participating Parties or Participants.

15. A candidate or member shall not communicate matters concerning actual or potential violations of this Code of Conduct unless the communication is to the Secretariat and is necessary to ascertain whether that candidate or member has violated or may violate the Code.

Part 5: Independence and Impartiality of Members

16. A member shall be independent and impartial. A member shall act in a fair manner and shall avoid creating a reasonable apprehension of bias or an appearance of impropriety.

17. A member shall not be influenced by self-interest, outside pressure, political considerations, public clamour, loyalty to a Party, or fear of criticism.

18. A member shall not, directly or indirectly, incur any obligation or accept any benefit that would in any way interfere, or appear to interfere, with the proper performance of the member's duties.

19. A member shall not use the member's position on the Presiding Body to advance any personal or private interests. A member shall avoid actions that may create the impression that others are in a special position to influence the member. A member shall make every effort to prevent or discourage others from representing themselves as being in such a position.

20. A member shall not allow past or existing financial, business, professional, family, or social relationships or responsibilities to influence the member's conduct or judgment.

21. A member shall avoid entering into any relationship, or acquiring any financial or personal interest, that is likely to affect the member's impartiality, or that might create a reasonable apprehension of bias or an appearance of impropriety.

Part 6: Post Proceeding Conduct

22. For a period of one year after the completion of a Proceeding, a former member shall not personally advise or represent any Participating Party or Participant in the Proceeding with respect to any issues which arose in the Proceeding.

23. A member or former member shall not represent a Participating Party or Participant in a Proceeding involving the issues in dispute before the Presiding Body, or in an administrative or domestic court proceeding involving similar issues.

24. A former member shall avoid actions that may create the appearance that the member was biased in carrying out the member's duties or would benefit from the decision of the Presiding Body.

Part 7: Maintenance of Confidentiality

25. A member or former member shall not at any time disclose or use any non-public information concerning the Proceeding or acquired during the Proceeding, except for the purposes of the Proceeding, nor disclose or use any such information to gain personal advantage or advantage for others, or to affect adversely the interest of another.

26. A member shall not disclose a Presiding Body Report or Presiding Body decision prior to its release by the Secretariat.

27. A member or former member shall not disclose the ongoing deliberations of a Presiding Body, except as required by law.

Part 8: Responsibilities of Staff

28. Parts 2 and 7 of this Code of Conduct also apply to staff. Part 3 applies to staff to the extent that they are not obliged to submit disclosure statements, but have an initial and continuing obligation to disclose to Presiding Body members any interests, relationships, or matters that may bear on the integrity or impartiality of the dispute resolution process.

Part 9: Responsibilities of the Secretariat and Breaches of the Code of Conduct

29. The Secretariat shall take all necessary steps to protect the confidentiality of disclosure statements and any subsequent disclosures.

30. Any communication to the Secretariat regarding a conflict of interest, a reasonable apprehension of bias or an appearance of impropriety shall be conveyed to the Participating Parties or Participants for the purposes of determining whether there has been a breach of this Code of Conduct.

31. If a Disputing Party or Disputant believes that there has been a breach of this Code of Conduct by a member of a Presiding Body before which the Disputing Party or Disputant has appeared or will appear, the Disputing Party or Disputant may submit a written complaint to the Secretariat as soon as possible after discovering the breach. The Secretariat shall immediately distribute the complaint to the other Participating Parties or Participants and to the Presiding Body. The Presiding Body member who is the subject of the complaint may respond to the complaint in writing, by submitting such response to the Secretariat within 10 days after being notified of the complaint. The Secretariat shall distribute any written response to the Participating Parties or Participants and to the other

members of the Presiding Body.

32. If the Presiding Body has only one member, in the event the Disputing Parties or Disputants are unable to agree as to whether there has been a breach of this Code of Conduct, the matter shall be decided by an individual from the Appellate Panel roster selected by lot by the Secretariat, excluding any individual appointed to the roster by a Disputing Party or Disputant, or resident in the territory of a Disputing Party or Disputant.

33. The Appellate roster member shall issue his or her decision, with reasons, to the Secretariat, which shall forward it to the Participating Parties or Participants. Where the Appellate roster member decides that there has been a breach, the Presiding Body member found to be in breach shall resign and a replacement shall be appointed in accordance with Rule 74 of Annex 1007.1 and 1024.1.

34. If the Presiding Body has three members, in the event that the Disputing Parties or Disputants are unable to agree as to whether there has been a breach of this Code of Conduct, the matter shall be decided by the remaining members of the Presiding Body.

35. If the remaining members of the Presiding Body cannot agree that there has been a breach of this Code of Conduct, the Presiding Body member alleged to have breached the Code shall continue to be a member of the Presiding Body. The remaining members of the Presiding Body shall issue their decision, with reasons, to the Secretariat, which shall forward it to the Participating Parties or Participants, without disclosing the position taken by the Presiding Body member.

36. If the remaining members of the Presiding Body agree that there has been a breach of this Code of Conduct, the Presiding Body member found to be in breach shall resign and a replacement shall be appointed by the remaining members of the Presiding Body from the applicable roster within 10 days after having reached such agreement. If they are unable to agree on a replacement within that period, the Secretariat shall select a replacement by lot from the applicable roster.

37. If the Presiding Body member required to be replaced under paragraph 36 was the only member of the Presiding Body with administrative law experience, the remaining members of the Presiding Body or the Secretariat, as the case may be, shall select a replacement with administrative law experience.

38. The Presiding Body shall determine, in consultation with the Participating Parties or Participants, all procedural matters associated with the resignation of a Presiding Body member and appointment of his or her replacement, including the point from which Proceedings shall resume.

**Industry

Type of Exception: Article 312 (Market Access – Investment)

Measure(s):

Canada Business Corporations Act, RSC 1985, c C-44
Canada Business Corporations Regulations, 2001, SOR/2001-512
Canada Cooperatives Act, SC 1998, c 1
Canada Cooperatives Regulations, SOR/99-256

Description:

1. A corporation may place constraints on the issue, transfer, and ownership of shares in a federally incorporated corporation. The object of those constraints is to permit a corporation to meet Canadian ownership or control requirements, under certain laws set out in the *Canada Business Corporations Regulations, 2001*, in sectors where Canadian ownership or control is required as a condition to receive licences, permits, grants, payments, or other benefits. In order to maintain certain Canadian ownership levels, a corporation is permitted to sell shareholders' shares without the consent of those shareholders, and to purchase its own shares on the open market.
2. The *Canada Cooperatives Act* provides that constraints may be placed on the issue or transfer of investment shares of a cooperative to persons not resident in Canada, to permit cooperatives to meet Canadian ownership requirements to obtain a licence to carry on a business, to become a publisher of a Canadian newspaper or periodical or to acquire investment shares of a financial intermediary and in sectors where ownership or control is a required condition to receive licences, permits, grants, payments and other benefits. If the ownership or control of investment shares would adversely affect the ability of a cooperative to maintain a level of Canadian ownership or control, the *Canada Cooperatives Act* provides for the limitation of the number of investment shares that may be owned or for the prohibition of the ownership of investment shares.
3. For the purposes of this exception Canadian means "Canadian" as defined in the *Canada Business Corporations Regulations, 2001* or in the *Canada Cooperatives Regulations*.

Investment Canada Act, RSC 1985, c 28 (1st Supp.)
Investment Canada Regulations, SOR/85-611

Description:

1. Under the *Investment Canada Act*, the following acquisitions of control of Canadian businesses by “non-Canadians” are subject to review by the Director of Investments:
 - (a) any direct acquisition of a Canadian business with assets of \$5 million or more;
 - (b) any indirect acquisition of a Canadian business with assets of \$50 million or more;
 - (c) any indirect acquisition of a Canadian business with assets between \$5 million and \$50 million that represent more than 50 per cent of the value of the assets of all the entities the control of which is being acquired, directly or indirectly, in the transaction in question.
2. Except as set out in paragraphs 3 and 7, the Director of Investments will review a direct “acquisition of control”, as defined in the *Investment Canada Act*, of a Canadian business by a non-Canadian investor who has the benefit of international trade agreements if the value of the Canadian business is not less than \$600 million, adjusted in accordance with the applicable methodology in January of each subsequent year as set out in the *Investment Canada Act*.
3. The higher threshold in paragraph 2 does not apply to a direct “acquisition of control” of a Canadian business by a state-owned enterprise that is a non-Canadian investor who has the benefit of international trade agreements. Such acquisitions are subject to review by the Director of Investments if the value of the Canadian business is not less than \$375 million in 2016, adjusted in accordance with the applicable methodology in January of each subsequent year as set out in the *Investment Canada Act*.
4. An investment subject to review under the *Investment Canada Act* may not be implemented unless the Minister responsible for the *Investment Canada Act* advises the applicant that the investment is likely to be of net benefit to Canada. This determination is made in accordance with 6 factors described in the Act, summarized as follows:
 - (a) the effect of the investment on the level and nature of economic activity in Canada, including the effect on employment, on the use of parts, components, and services produced in Canada, and on exports from Canada;

- (b) the degree and significance of participation by Canadians in the investment;
 - (c) the effect of the investment on productivity, industrial efficiency, technological development, and product innovation in Canada;

 - (e) the compatibility of the investment with national industrial, economic, and cultural policies, taking into consideration industrial, economic, and cultural policy objectives enunciated by the government or legislature of any Province likely to be significantly affected by the investment; and
 - (f) the contribution of the investment to Canada's ability to compete in world markets.
5. In making a net benefit determination, the Minister, through the Director of Investments, may review plans under which the applicant demonstrates the net benefit to Canada of the proposed acquisition. The Minister can receive undertakings in connection with a proposed acquisition that is the subject of review. In the event of noncompliance with the *Investment Canada Act*, the Minister may seek a court order directing compliance or any other remedy authorized under the *Investment Canada Act*.
 6. A non-Canadian who establishes or acquires a Canadian business, other than those that are subject to review, must notify the Director of Investments.
 7. The review thresholds set out in paragraphs 2 and 3 do not apply to an acquisition of a cultural business.
 8. In addition, the specific acquisition or establishment of a new business in designated types of business activities relating to Canada's cultural heritage or national identity, which are normally notifiable, may be subject to review if the Governor-in-Council authorizes a review in the public interest.
 9. An indirect "acquisition of control" of a Canadian business, other than a cultural business, by non-Canadian investors having the benefit of international trade agreements, is not reviewable.

 11. Except for measures or conditions relating to technology transfer as set out in paragraph 10 of this exception, Article 313 (Performance Requirements) applies to measures or conditions imposed or enforced under the *Investment Canada Act*.

For the purposes of this exception: a "non-Canadian" means an individual, government or agency thereof or an entity that is not Canadian and "Canadian" means a Canadian citizen or permanent resident, a government in Canada or agency thereof, or a Canadian-controlled entity as described in the *Investment Canada Act*.
